

AgendaLink Solo

The All in One Live-Meeting Solution

CORE FEATURES

- Always up-to date. No software to install.
- Modern Simple Web App UI for setup, in meeting controls, and after meeting results
- Automated PDF generation of meeting minutes
- API for 3rd party software integrations
- Built In Protocol to extend controls to AV Gear
- Agenda Import via CSV
- Request to Speak
- Voting
- Speaker Timer
- Live Meeting Output with real-time feedback
- Test Mode

ADD-ON CAPABILITIES

- **AgendaLink:** Our own cloud meeting management software platform. Easy to use, real time agenda creation extending the capabilities of Solo (inquire for demo)
- **Granicus Legistar Integration:** Allows importing and exporting Legistar data automatically
- **Speaker Comment Card:** A publicly available URL allowing the public to request to speak or make a comment on a meeting topic. Data is automatically available in the software.
- **Remote Voting:** Cloud integration allowing members to join meetings and utilize all features without the need for vpn access to the main control unit
- **Automated Meeting Broadcast:** Watch as your meeting broadcast runs itself by simply following along while you use the software. Start your broadcast, live stream, change live feed, control camera presets automatically.
- **Live Stream / Video on Demand:** (Coming 2021) Simple Affordable live streaming and video on demand capabilities. We harness the power of YouTube APIs to provide you with easy workflows, no data storage fees, and reliability
- **Integrated Video Conferencing:** (Coming 2021) No more need for 3rd party video conferencing software. Simply join the AgendaLink meeting and we handle the rest. Mic Controls, Video, etc all built right into the AgendaLink In Meeting UI.
